From heavy hitting Full Suspension Enduro Bikes to KOM chasing Road Bikes and Balance Bikes to freedom inspiring eBikes, we love all things bike and are passionate about helping you find the perfect bike. Pay4Later is licensed by The Office of Fair Trading Consumer Credit Licence 0616240. For more information please refer to our frequently asked questions or visit. Secure Trust Bank is authorised and regulated by the Financial Services Authority, licensed by the Office of Fair Trading and a member of the Finance and Leasing Association. For more information please visit. Try using Search to find similar products. Some of the most critically acclaimed bikes we make, our Trail SL bikes are packed full of technology Lightweight and reliable. Incredible performance at a remarkable price. A Bike Fit can help you achieve the most comfortable and efficient riding position. Choose a bike, hire it for an agreed length of time from your employer using pretax salary sacrifice meaning you pay less tax and then snap it up for a fraction of its value at the end of the period. This can be beneficial for both the company and the employees by streamlining the process for the HR department and enabling the employees to avoid paying any commission. If you'd like to know more about this please get in touch. We provide an easy to follow stepbystep instruction sheet to help you along the way. We are happy to advise over the phone, but if you are unsure, we would always recommend having your bike assembled by a professional. During very busy periods there may be a 12 day delay on dispatch but we'll make this clear straight away. We therefore strongly recommend that you advise us of a favoured delivery day, ask the courier to leave your package with a trusted

neighbour, or collect it from a local delivery depot. <http://www.aeok.org/uploads/dmu-2000-manual.xml>

We can hold dispatch for a day that suits you if you can work from home, or you have a family member who can be home on a particular day for example but we are unable to change the delivery address. If you cannot decide, please contact us and we can assist, but don't ride it before doing so. Bikes must be returned in a securely packaged bike box. Once goods have been used it will be considered an acknowledgement that you are happy. Please also ensure you have removed any personal items or upgrades before returning the item. Signing for items that have clearly been damaged by the courier is the responsibility of the receiver. Give us a call on 01362 690 953 Registered Office One Arleston Way, Solihull, B90 4LH. Secure Trust Bank Plc is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority with registration number 204550. Whenever we get updated information from our suppliers we will endeavour to update the Estimated Delivery Dates provided on product pages. Lightweight and reliable. Incredible performance at a remarkable price. Please correct your search and try again If you continue to use our website, we will assume you are happy to receive cookies from us and our partners. We all have a true passion for the outdoor and we feel that this always transfers into how we operate the business. We don't just talk shop, we get out there and enjoy it and its this thats so important when dealing with you the customer, this enables us to offer expert and honest advice. With shops in Hednesford and Milford. Along with sales, these stores offer bike repairs too. Our Stafford store concentrates soley on running, offering shoes, clothing, accessories and more expert advice.

Our brands include Scott, Cannondale, Whyte, Frog, Merida, Garmin, On Running, Hoka, OTE and Madison, plus much more. We stock them because we love them. Weve been out and tested them or we own products from them ourselves. We also have a fantastic customer rewards program to support those who support us. We understand that we need to be competitive therefore we offer a price match policy on hundreds of items. Its really simple, just click on the option on the page and send us the details. Couldnt be easier. Upgraded kit for even better performance ready for aspiring XC racers or fast trail riders looking to go flat out at all times Pay4Later is licensed by The Office of Fair Trading Consumer Credit Licence 0616240. For more information please visit. Try using Search to find similar products. They are proof that highend performance doesnt have to mean a highend price. Firstly what is your budget and secondly what kind of terrain you want to ride on. We would always recommend that at least you choose a bike with hydraulic brakes and a reasonable 100mm suspension fork. Below this price point we find most bikes have insufficient quality brakes and poor quality forks that wear very quickly developing play in the bushes on the fork within no time. The frames differ in design to suit these areas of the sport. Such as a leisure frame will offer a more upright position against an XC design which will be lower at the front end and offer a more aggressive ride. If there is nobody available at the delivery address to accept the delivery a card will be left to inform the recipient and the courier will re attempt the delivery once more. After the 2 nd attempt the courier will leave a card explaining how and where the customer can collect the parcel from. Unfortunately we are unable to request the courier to leave the goods without a signature. We do our best to make the bikes as ready to ride as possible.

They will arrive in a large sized box and once unpacked the bike will require the user to turn the handlebars and tighten the stem bolts. This means that for any reason you decide that you no longer want the product then you may return it in its original packaging, unused with the relevant tags attached back to us and once checked we will refund your money within 28 days or replace your product subject to stock availability. This offer is nontransferable. Proof of damage will be required.

A returns form can be completed and submitted to us above. On receiving the products we will carry out an inspection and should we find that it was in anyway our fault or the product was faulty then we will happily refund you the cost of the postage. Naturally should we believe it not to be our fault then we may choose not to refund any postage and may choose to claim costs of packaging for returning the products to yourself. When you find the item you want simply add it to your basket like you usually would. All bikes go through a PDI Pre Delivery Inspection delivered by one of our accredited mechanics, this means that getting your bike ready for collection may take a little longer. If you've ordered a bike we will contact you once you have placed your order to arrange a collection time. Please note, full refunds will be made via the original transaction made with our online team. Registered Office One Arleston Way, Solihull, B90 4LH. Namba Sumiso Building 9F,Nishiku, Osaka 5500015, Japan. All models use 700x38mm tires, with options for both standard and dropped top tube. While the sporty Quick model already had an ebike option the Quick Neo, it's a pricier affair that uses a highlyintegrated Bosch motor and battery.The total system adds 3.5 kg or 7.7 lbs to the weight of the Quick. This allows your smartphone to act as a dashboard display for information like speed, distance, and calories burned. It also tracks maintenance needs and sends service reminders based on miles ridden. I understand there is some integration which I'd pay for, but man this thing seems like a ripoff. Also not many people are mechanically competant enough to add an electric drive system to an ordinary bike. This will also have full warrant from both Cannondale and Mahle, and adding a system to a normal bike yourself would void the frame warranty. Absolutely love it. Design and build are far superior to anything else in this price range.

Quality Quality Quality. Perfect for any type rider and especially those getting into road biking for the first time. Hills What hills Conquer them all. They say this has 3 different modes, how can I get it into turbo mode I'd assume it's in the down tube, and I don't see how in the world one could replace it were it defective.

Failure to follow this checklist and to have any potential problem inspected could lead to an accident, with risk of serious injury, paralysis or death. **B I C Y C L E O W N E R ' S M A N U A L PRERIDE CHECKLIST** Are you wearing a helmet and other appropriate equipment and clothing, such as protective glasses and gloves. Do not wear loose clothing that could become entangled in the bicycle See **P A R T I, Section 2.A The Basics**. Are your seatpost and stem securely fastened. Twist the handlebars rmly from side to side while holding the front wheel between your knees. The stem must not move in the steering tube. Similarly, the seatpost must be secure in the seat tube See **P A R T I, Section 3. Fit**. Are you visible to motorists. If you are riding at dusk, dawn or at night, you must make yourself visible to motorists. Use front and rear lights and a strobe or blinker. Reflectors alone do not provide adequate visibility.

Wear reflective clothing See **P A R T I, Section 2.E Night Riding** and **P A R T II, A. Important Safety Information**. Is it raining or wet. If so, be more cautious. Your braking distances will increase, and your tires' grip on the road will decrease. Remember that motorists' visibility decreases with bad weather See **P A R T I, Section 2.D Wet Weather Riding** and **P A R T II, A. Important Safety Information**. Are your tires properly inflated Tires must be inflated to the recommended pressure. See **P A R T I, Section 4.G Tires and Tubes**. Are your wheels true. Lift each end of the bike and spin each wheel. Does the space between the rim and the brake pads, or the tire and the frame, remain nearly the same size as the wheel turns. Are your spokes tight See **P A R T I, Section 1. C Mechanical Safety Check**. Are your wheels' quick releases properly fastened. Be sure to read the section on proper operation of quick release skewers See **P A R T I, Section 4.A Wheels**. Are your front and rear brakes functioning properly. With V brakes, the quick release "noodle" must be properly installed. With cantilever brakes, the quick release straddle cable must be properly attached. With caliper brakes the quick release lever must be closed. With any rim brake, the brake pads must make rim contact with the rim without the brake levers hitting the handlebar grip See **P A R T I, Section 4.C Brakes**. With hydraulic disc brakes, check that the lever feels firm, does not move too close to the handlebar grip, and there is no evidence of leaking brake fluid. With cable actuated disc brakes, check that the lever feels firm and does not move too close to the handlebar grip. With any disc brakes, the brake pads must make rim contact with the rotor without the brake levers hitting the handlebar grip See **P A R T I, Section 4.C Brakes**. How do your clipless pedals work today. Clip in and out of your pedals before you begin. Experienced cyclists do.

The connection between cleat and pedal is affected by dozens of factors including dirt, mud, lubrication, spring tension and wear. By clipping in and out you will check the function and have a fresh memory of how they feel See **P A R T I, Section 4.E Pedals**. How recently were your frame, fork

and components inspected. Never ride a frame, fork or components with any crack or damage. See PART II, Section D. Ask your question here. Provide a clear and comprehensive description of the issue and your question. The more detail you provide for your issue and question, the easier it will be for other Cannondale Trail 6 owners to properly answer your question.
