You can still receive telephone calls in Power Save mode. For further information on receiving faxes in the power save condition, please see the table on page 22. You can receive telephone calls by lifting the handset MFC680CN or using the cordless handset MFC885CW. When an external TAD is connected and Fax Detect is turned on. While in Fax mode, press to adjust the volume level. The LCD shows the current setting, and each key press will change the volume to the next level. It will reset itself forward one hour in the Spring and backward one hour in the Autumn. Setting and changing the memory security password Note If you have already set the password, you will not need to set it again. Press a or b to choose Fax. Press OK. Press a or b to choose Miscellaneous. Press OK. Press a or b to choose Mem Security. Press OK. Press a or b to choose Set Password. Press OK. The documents can be up to letter or A4 size. You cannot send multiple pages for colour faxes. Note Since you can only scan one page at a time, it is easier to use the ADF if you are sending a multiple page document. Press Fax. The LCD shows Fax Resolution Standard Contrast Auto. Press Fax. Press a or b to choose Fax Resolution. Press d or c to choose the resolution you want. Note You can choose four different resolution settings for monochrome faxes and two for colour. After you send a fax using this feature, the feature will turn itself off. These settings will stay until you change them again. Press Fax. Choosing the Receive Mode By default, your machine will automatically receive any faxes that are sent to it. The diagram below will help you choose the correct mode. You may want to change the ring delay before using these modes. See Ring Delay on page 41. Fax only

Fax only mode will automatically answer every call as a fax call. If you have external or extension telephones on the same line as the machine choose the maximum number of rings. http://euroquimicadistribucion.com/zabaleta/data/imagenes_contenidos/d8-hara-manual.xml

When you see Receiving on the LCD or when you hear “chirps” through the handset you are using, just replace the handset. Your machine will do the rest. The machine calculates the reduction ratio by using the page size of the fax and your Paper Size setting. Ask the other party to place the document in their machine and to press the Start or Send key. Making a telephone call To start a voice call, do one of the following Pick up the handset. MFC680CN only Press Speaker Phone. When you hear the dial tone, enter a number using the dial pad, Speed Dial or Search. Any digits dialled after this will send tone signals. Call your local telephone company to find out about the kind of service available in your area. Press a or b to choose Fax. Press OK. Press a or b to choose Miscellaneous. Press OK. Press a or b to choose BT Call Sign. Press OK. Set your external TAD to one or two rings. The machines Ring Delay setting does not apply. Record the outgoing message on your external TAD. Set the TAD to answer calls. Using a cordless external telephone MFC680CN only If your cordless telephone is connected to the telephone line cord See External and extension telephones on page 51 and you. Speed Dialling Press Speed Dial. You can also choose Speed Dial by pressing Fax. Press a or b to choose Search. Press OK. When you dial you will only have to. Enter the fax or telephone number up to 20 digits. You can have up to six Groups, or you can assign up to 158 numbers MFC680CN or 198 numbers MFC885CW in a large Group if you have 2 numbers in each location. Press a or b to choose Setup Groups. The LCD displays the total number of voice and fax messages stored in the TAD memory. Fax messages are only stored when Fax Storage or Fax Preview is turned on. See Advanced fax operations Monochrome only on page 65. Your recording can be as long as the incoming message maximum time up to 3 minutes.

If received faxes are still in the machine’s memory when you change the advanced fax operations, a question will appear on the LCD. You will be able to retrieve fax messages from another location using the remote retrieval commands. If you have set Fax Storage, a backup copy will automatically be printed at the machine. You can see the new fax list. Note You can also see your old fax list by pressing l. You must set the Real Time Transmission and Polling RX to off before you use this feature. Press Fax. Load the document. Enter the fax number using the dial pad or Speed Dial. Setting a Remote Access Code The remote access code lets you access the remote retrieval features when you are away from your machine. When you call the machine and enter your remote access code 3 digits followed by l, the system will give two short beeps and you must enter a remote command. Remote commands Playing Voice messages 1 Repeat or Skip Backward. Before you use this feature, you have to turn on Fax Storage. Transmission Verification Report You can use the Transmission Verification Report as proof that you sent a fax. This report lists the time and date of transmission and whether the transmission was successful OK. Help List A help list about how to quickly program your machine. Quick Dial Lists names and numbers stored in the Speed Dial memory, in alphabetical or numerical order. Secure Polling only works with Brother fax machines. If you want to get a fax from a secured Brother machine you have to enter the secure code. You can only set up one delayed polling operation. Press Fax. Press a or b to choose Polling RX. Press d or c to choose Timer. Press OK. Secure Polling only works with Brother fax machines. If another person wants to retrieve a fax from your machine, they will have to enter the secure code. The machine returns to its default settings after 1 minute, or if the Mode Timer returns the machine to Fax mode. See Mode Timer on page 22.

If you have finished choosing settings, press Mono Start or Colour Start. Press OK and then enter an enlargement or reduction ratio from 25% to 400%. Press OK. Making copies Sorting copies using the ADF You can sort multiple copies. Press a or b to choose Paper Type. Press d or c to choose Plain Paper, Inkjet Paper, Brother Photo, Other Photo or Transparency. Press OK. If you do not want to

change additional settings, press Mono Start or Colour Start. These settings will stay until you change them again. Press Copy. The LCD shows View Photos View photos on the LCD View photos on the LCD Print Index Print Index. It highlights green and blue areas in your photo, so that the landscape looks more sharp and vivid. Make sure you have put the memory card or USB Flash memory drive in the correct slot. Make sure you have put a memory card or USB Flash memory drive in the correct slot. Press PhotoCapture. Press a or b to choose Photo Effects. Press OK. Press d or c to choose your photo. Press OK. Make sure you have put a memory card or USB Flash memory drive in the correct slot. Press PhotoCapture. Press a or b to choose Print All Photos. Note If your photo is very small or has irregular proportions you may not be able to trim the photo. The LCD will display Image Too Small. Press d or c to choose the paper type you are using, Plain Paper, Inkjet Paper, Brother Photo or Other Photo. Press OK. If you do not want to change additional settings, press Colour Start to print. Press d or c to make a darker or lighter print. Press OK. If you do not want to change additional settings, press Colour Start to print. Contrast You can choose the contrast setting. The factory setting is On. If you want to print the whole image, turn this setting to Off. Press a or b to choose Cropping. The LCD shows Scan to Email Scan to Email Scan a document into Scan a document into Scan to Image.

For more information, visit us at This message will also appear if you connect a broken device to the USB direct interface. If your camera is using the USB Mass Storage standard, you can also print photos from a digital camera without PictBridge. Make sure that your camera is turned off. Connect your camera to the USB direct interface 1 on the machine using the USB cable. This enables you to print photos from your camera. If you would like to print photos in PictBridge mode, see Printing photos directly from a PictBridge camera on page 104. Put the machine near a telephone socket and a standard grounded electrical socket. Note If there are faxes in the machines memory, you need to print them or save them before you unplug the machine from the AC power outlet for more than 24 hours. To print the faxes in memory, see Printing a fax from the memory on page 44. Doing this may cause injury. DO NOT put your hands on the edge of the paper tray under the output paper tray cover. Doing this may cause injury. If the machine becomes hot, releases smoke, or generates any strong smells, immediately unplug the machine from the electrical socket. Call your Brother dealer or Brother Customer Service. If metal objects, water or other liquids get inside the machine, immediately unplug the machine. Never touch telephone wires or terminals that are not insulated unless the telephone line has been unplugged at the wall socket. Never install telephone wiring during a lightning storm. Never install a telephone wall socket in a wet location. The wires in the mains lead are coloured in line with the following code Green and Yellow Earth Blue Neutral Brown Live If in any doubt, call a qualified electrician. LAN connection CAUTION DO NOT connect this product to a LAN connection that is subject to overvoltages. This memorandum is intended to be a guide rather than a complete list. We suggest you check with relevant legal authorities if in doubt about a particular item or document.

The following are examples of documents which may not be copied Money Bonds or other certificates of indebtedness. Brother is a registered trademark of Brother Industries, Ltd. All rights reserved. Microsoft and Windows are registered trademarks of Microsoft corporation in the U.S. and other countries. Most problems can be easily resolved by yourself. If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. Visit us at Use at least 24 bit colour data with the Colour Enhancement feature. When you print on Brother photo paper, load the instruction sheet included with the photo paper in the paper tray first, and then put the photo paper on top of the instruction sheet. Ask the other party to send the fax again. Brothers ECM

feature should help overcome this problem. This condition is related to the telephone system industry and is common to all devices that send and receive information on a single, shared line with custom features. This will allow you to access all the functions of FaceFilter Studio. If this happens, your machine identifies the error and shows an error message. The most common error messages are shown below. You can correct most errors by yourself. If you need more help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips. The machine will stop all print operations. While memory is available, black and white faxes will be stored in the memory. The paper is jammed in the machine. You tried to access a Speed Dial Not Registered number that is not programmed. The machine has a mechanical Unable to Print XX problem. —OR— A foreign object such as a clip or ripped paper is in the machine. For more information, visit us at Paper is not the correct size. Wrong Paper Size Error animation Error animation displays stepbystep instructions when paper gets jammed or ink cartridges are empty. Make sure you have installed MFLPro Suite on your PC, and then turn on PC FAX Receiving on the PC.

For details see PC FAX receiving for Windows the Software User's Guide on the CDROM. Lift the document cover. Pull the jammed document out to the left. Close the document cover. Doing this may damage the cover and cause paper jams. Put the Jam Clear Cover back on. Make sure the cover is set properly. Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover 1 until it locks securely into the open position. Note Make sure you pull out the paper support until it clicks. Dial Tone detection When you send a fax automatically, by default your machine will wait for a fixed amount of time before it starts to dial the number. The ink dot counter automatically monitors the level of ink in each of the 4 cartridges. When the machine detects an ink cartridge is running out of ink, the machine will tell you with a message on the LCD. If you do so, it may reduce the ink quantity and the brother machine will not know the quantity of ink left in the cartridge. DO NOT touch the cartridge insertion slots. Brother cannot guarantee this optimum performance if ink or ink cartridges of other specifications are used. Brother does not therefore recommend the use of cartridges other than genuine Brother Branded cartridges or the refilling of empty cartridges with ink from other sources. Clean the scanner glass 2 and the white plastic 3 with a soft lintfree cloth moistened with a nonflammable glass cleaner. In the ADF unit, clean the white bar 1 and the glass strip 2 with a lintfree cloth moistened with a nonflammable glass cleaner. Unplug the machine from the electrical socket and remove the Jam Clear Cover 1. CAUTION DO NOT place the jam clear cover face down as shown in the illustration. Doing this may damage the cover and cause paper jams. Checking the print quality If faded or streaked colours and text appear on your output, some of the nozzles may be clogged. CAUTION DO NOT touch the print head.

www.mtpartnersfl.com/wp-content/plugins/formcraft/file-upload/server/content/files/162741343ecc78---bronco-manual-hubs.pdf

Touching the print head may cause permanent damage and may void the print heads warranty. Troubleshooting and Routine Maintenance. Note If you cannot open the cover with your hand, use a coin to open it. Align the recessed arrows on the cradle with those on the machine, and then slide the cradle toward the front of the machine until it clicks into place. It is essential that the machine be shipped with either the yellow protective part or the ink cartridges in position. Shipping without them will cause damage to your machine and may void your warranty. Do not pack the used ink cartridges in the carton. MFC680CN Troubleshooting and Routine Maintenance MFC885CW Close the carton and tape it shut. Userfriendly programming helps you take full advantage of all the menu selections your machine has to offer. Since your programming is done on the LCD, we have created stepbystep onscreen instructions to help you program your machine. Level3 Options Caller ID U.K. Factory Reset Wired LAN MFC885CW only See Network Users Guide on the CDROM The factory settings are shown in Bold with an asterisk. Level3 Level4 — DNS Server — APIPA —. Make a phone call For U.K. and Ireland only Send a fax Add to Speed. Scan Level1 Option1 — Scan to Email —

Scan to Image —. Option3 Option4 — — — — — — — — Descriptions Page Crops the image around the margin to fit the paper size or print size. Most dial pad keys have three or four letters printed on keys. For glossy paper or transparencies, we recommend removing printed pages from the output paper tray immediately after they exit the machine to avoid smudging. See Paper type and size for each operation on page 13. Paper Tray Paper type Plain paper, inkjet paper coated paper, glossy paper. Specifications and printed materials are subject to change without prior notice. Copy speeds vary with the complexity of the document. Visit for more information. USB direct interface Specifications. Availability of these features depends on the model you purchased.

ADF automatic document feeder The document can be placed in the ADF and scanned one page at a time automatically. Overseas Mode Makes temporary changes to the fax tones to accommodate noise and static on overseas telephone lines. Pause Allows you to place a 3.5 second delay in the dialling sequence stored on Speed Dial numbers. You must press Speed Dial, the two digit code, and Mono Start or Colour Start to start the dialling process. It is used for regular size text and quickest transmission. Local Brother companies or their dealers will only support machines purchased in their own countries. We have 3 Brother MFC680CN manuals available for free PDF download User Manual, Network Users Manual, Quick Setup Manual. Retain this Users Guide APPROVAL INFORMATION Brother advises that this product may not function correctly in a country other than where it was originally purchased, and does not offer any warranty in the event that this product is used on public telecommunication lines in another country. Compilation and Publication Notice Under the supervision of BReading the documentation will help you make the most of your machine. Symbols and conventions used in the documentation 1 The following symbols and conventions are used throughout the documentation. Bold Bold typeface identifies specific keys on the machine's control panel. Italics Italicized typeface emphasizes an important point or refers you to a related topic. Courier Text in the Courier New The CDROM main menu will appear. Software User's Guide 1 and Network User's Guide 1 This User's Guide does not contain all the information about the machine such as how to use the advanced features of the Printer, Scanner, PC Fax and Network. When you are ready to learn detailed information about these operations, read the Software User's Guide and Network User's Guide that are on the CDROM. PageManager application.
