The setting resets to autofocus when you switch the program selector to EASY. Readjust the focus when you have turned off the camcorder. Fast Moving Subjects vertical lines. Keep the camcorder zoomed at the white object until step 3 is completed. The camcorder retains the custom white balance setting even if you turn it off. If " " camcorder shake warning appears in CARD CAMERA mode, stabilize the camcorder, for example, by mounting it on a tripod or placing it on a table. Wind Screen The camcorder reduces wind noise automatically. However, you can turn off the wind screen when recording indoors, or when you want the microphone to be as sensitive as possible. Fade Trigger FADET Corner Wipe CORNER Flip FLIP Zigzag ZIGZAG Tide TIDE Wipe WIPE Jump JUMP Puzzle PUZZLE Beam BEAM Art ART Mosaic MOSAIC Wave WAVE MultiImage Screen Captures moving subjects in 4, 9 or 16 sequences of still images and displays them at one time. Selecting a Fader In CAMERA mode, set the program selector to CAMERA PLAY VCR 1. The name of the selected effect flashes. Turn off the digital effect when you do not use it. The camcorder retains the setting even if you turn it off or change the program AE mode. The image quality may be slightly lower with digital effects. If you connect the camcorder to a TV with Video ID1 system, recordings made in the widescreen mode will be automatically played back in widescreen mode.

When you play back a tape, you can display the data code and select the data code combination you wish to display. The data code will not display the next time you turn on the camcorder. Only date and time appear in CARD PLAY mode. SixSecond Auto Date Date and time appear for 6 seconds when you begin playback, or to indicate that date or time zone has changed. This function is operated with the wireless controller. This function is operated with the wireless controller. Changing the My Camera Settings CAMERA PLAY VCR The displays " button names on the camcorder and will not change when you change the language. Changing the Date Format You can select between three date formats. If you turn off the beep, all camcorder sounds including the ones of the My Camera settings will be turned off. It starts automatically when you leave the camcorder turned on without loading a recording media for more than 5 minutes. However, you can set the camcorder not to start the demonstration mode. If you connect a digital video device, you can copy recordings with virtually no generation loss in image and sound quality. CAMERA PLAY VCR 1.

Connect the camcorder to the analog video device. Blank sections may be recorded as anomalous picture. If the picture does not appear, reconnect the DV cable or turn the camcorder off and back on again. You can only record signals from devices with the system in SP or LP format note that signals from identically shaped terminals may be of different format. If you attempt to play back such tape, "COPYRIGHT PROTECTED PLAYBACK IS RESTRICTED" appears and you will not be able to view the contents of the tape. If you attempt to record from such tape via the DV terminal, "COPYRIGHT PROTECTED DUBBING RESTRICTED". The DV terminal serves as output terminal only. We recommend powering the camcorder from a household power source. You cannot use the DV terminal for audio dubbing. If you add sound to a tape not recorded with this camcorder, sound quality may decrease.

<http://superbia.lgbt/flotaganis/1649202523>

Sound quality may decrease when you add sound to the same scene for more than 3 times. However, the mix balance is memorized by the camcorder. Otherwise, the computer may not operate properly. Remove the memory card. 4. Close the cover. This camcorder is compatible with SD Memory Cards or MultiMediaCards only. Do not use any other types of memory cards. Proper operation cannot be guaranteed for all memory cards. Movies are recorded with Motion JPEG compression. Maximum recording time on a 8 MB SD Memory Card Image Size 320 x 240. You can also record a still image on the memory card while you record a movie on the tape. In step 2, turns green, and focus and exposure are locked. The camcorder shuts off when you do not operate it for 5 minutes to save power. " AUTO POWER OFF" appears 20 seconds before shutoff. To continue recording, turn the POWER switch to OFF and then back to CAMERA. The card access indicator flashes. When recording from a tape in the camcorder or other video devices A still image recorded from an image in widescreen mode will be vertically compressed. The data code of the still image will reflect the date and time it has been recorded on the memory card. Image Size Indicates the still image size. When recording from a tape in the camcorder or other video devices A movie recorded from an

image in widescreen mode will be vertically compressed. Depending on the size of the subject or the distance, the camcorder may focus outside the frame. When you operate the zoom lever, the frames other than the selected one disappear. Try to include a distinctive item landmark, etc. in the overlapping portion. Doing so could result in data damage. Images are played back one after another. 2. Press the SLIDE SHOW button to stop the slide show. If a memory card is formatted, all still images and movies, even protected ones, will be erased permanently. Movies can only be protected when the first scene is displayed as a still image. CAMERA 1.

<http://education2me.com/images/c-manuale-italiano.pdf>

Be careful when erasing images. Erased images cannot be recovered. Protected images cannot be erased. Movies can only be erased when the first scene is displayed as a still image. Erasing a Single Image CAMERA PLAY VCR Choose one of the sample images provided on the supplied DIGITAL VIDEO SOLUTION DISK such as picture frames, backgrounds and animations and combine it with the live video recording. Refer to Saving Still Images from Your Computer to the Memory Card in the Digital Video Software Instruction Manual. Do not use these sample images for other purposes. Images erased by formatting cannot be recovered. If you use a memory card other than the supplied one, format it with the camcorder. You can also use the print order settings for direct printing. Following printers can be connected to your camcorder. In such case, disconnect the cable from camcorder and printer, turn off camcorder and printer, turn both back on and reconnect the camcorder to the printer. When you have finished printing 1. Date print cannot be selected with the CP Printers CP200 and CP300. Select the paper size of the paper set in your printer. 3. Selecting Still Images for Printing Print Order Do not connect a USB or DV cable to the camcorder while setting the print orders. CAMERA PLAY VCR 1. Select the still image you wish to print. See Installing the Software in the Digital Video Software Instruction Manual. A maximum of 200 images can be selected. Do not connect a USB or DV cable to the camcorder while setting the transfer orders. CAMERA 1. Select the image you wish to transfer. For playback, you can show the camcorder displays on the TV screen. A memory card error occurred. The camcorder cannot record or play back the image. The error may be temporary. If the message disappears after 4 seconds and “. On printers equipped with an operation panel, an error number or message displays on the panel.

Refer to the printer manual for the remedies corresponding to the error numbers or messages.

<http://ehma.com/images/c-programming-language-reference-manual.pdf>

Cancel printing, disconnect the USB cable and turn off the printer. After a while, turn the printer back on and reconnect the USB cable. To maintain the best picture quality, we recommend cleaning the video heads frequently with the Canon DVMCL Digital Video Head Cleaning Cassette or a commercially available dry cleaning cassette. Contact to metallic objects may cause a short circuit and damage the battery pack. Dirty terminals may cause a poor contact between the battery pack and the camcorder. Wipe the terminals with a soft cloth. If the tape becomes slack and damaged, it may cause picture and sound distortion. Return cassettes in the case and store them upright. Do not leave the cassette in the camcorder after use. Do not use spliced tapes or nonstandard cassettes as they may damage the camcorder. Image data may be corrupted or lost due to memory card defects or exposure to static electricity. Canon Inc. makes no warranties for corrupted or lost data. Consult the Canon Service Center for information on plug adapters for overseas use. Playback on a TV Screen You can only play back your recordings on TVs with NTSC system. Consult your dealer or a Canon Service Center if the problem persists. Power Source Problem Camcorder will not turn on. Battery pack is exhausted. Battery pack is not correctly attached. Cassette is not loaded. Tape reached the end " screen. Image will not appear on the TV screen. SD Memory Card is Change the position of the protected. Insert a memory card. You can also obtain genuine accessories for your Canon camcorder by calling 18008284040, Canon U.S.A. Information Center. Use of genuine Canon accessories is recommended. This product is designed to achieve excellent performance when used with genuine Canon accessories. This mark identifies genuine Canon video accessories. When you use Canon video equipment, we recommend Canonbrand accessories or products bearing the same mark.

Exif Print is a standard for enhancing the communication between camcorders and printers. By connecting to an Exif Printcompliant printer, the camcorder's image data at the time of shooting is

used and optimized, yielding extremely high quality prints. The limited warranty is only effective upon presentation of your Bill of Sale or other proof of purchase.
